Applied Educational Systems designs instructional materials for schools and instructors nationwide. During my internships, I completed a wide variety of design-related tasks, including designing new icons to represent lessons on the company's website, updating the visual theme for a unit, and designing and building an entirely new set of lessons using a virtual, interactive instructional format.

Fusion is a graphic design agency that gives students real-world experience by completing design projects for Lehigh organizations, nonprofits, and companies in the local community. During the Fall 2015 - Fall 2016 semesters, in addition to performing design work, I also managed a small team of designers creating projects such as promotional materials for a local animal shelter and a brochure for Lehigh's Office of Fraternity of Sorority affairs.
